Austin is a manager in the Information Technology Services practice of Saltmarsh, Cleaveland & Gund. In his role, Austin provides onsite and remote technology and network support services such as installation, server management, networking, and end-user support for all levels of the firm's technology clients. He has over five years of experience in implementing new technologies and creating solutions to resolve information technology issues for businesses across various industries such as healthcare, financial institutions, utilities and small businesses. Prior to working at Saltmarsh, Austin was a technology specialist at a regional credit union where he provided network support.
