Bethany practices in the Litigation Support and Tax & Accounting services departments, providing business advisory services to the firm's clients. She is responsible for providing litigation support which includes business valuations and lost profits and damage calculations. She also performs a variety of tax and accounting functions such as preparation of individual and corporate tax returns and financial statements. Prior to joining Saltmarsh in 2015, Bethany spent several years as a senior claims analyst calculating business interruption and individual wage loss claims from the Deepwater Horizon oil spill. Bethany also provided accounting and litigation support services for a nationally recognized law firm. Bethany is currently studying for the CPA exam.
